

SELECTIVE HERBICIDE

Quintessential[®]

HERBICIDE

TAKING QUINCLORAC PERFORMANCE
TO THE NEXT LEVEL.

POWERED BY
H Value
Technology

Quintessential[®], powered by H Value[®] Technology, alters the formulation of quinclorac in a way that improves absorption of the product into the plant. That means faster activity and higher rate load in the targeted weed, as well as improved performance in rainfast situations. And unlike any other herbicide on the market, **Quintessential** demonstrates improved control of crabgrass at all growth stages, including the problematic 3-5 tiller stage. **Quintessential** will be the essential tool for combatting crabgrass and other troublesome turf weeds.

PRODUCT FEATURES

- Unique, patent-pending formulation powered by H Value Technology, a proprietary performance additive that increases efficacy.
- Controls crabgrass including the mid-tiller stage of growth.
- Enhanced rainfast performance.

LABELED USES
